One of only ten awarded in Alabama Elba Parks and Recreation receives \$30,000 grant for summer program

by Linda Hodge, Editor

Elba Parks and Recreation received good news last Wednesday, March 20, as director Greg Hanchey was notified the rec program had been awarded a \$30,000 grant.

Hanchey said he learned of a grant opportunity some time back made possible by a partnership between the National Recreation and Park Association [NRPA] and the Walmart Foundation. The joint project between those two entities was to increase the number of healthy meals served to children during out-of-school times, provide evidence-based nutrition education to children and families and implement healthy eating and physical activity standards.

The grant, Increasing Access to Healthy Foods in Rural Communities, was made possible in three states — Alabama, Louisiana, and New Mexico. Hanchey said 10 rural communities were selected from each of the three states to receive the grant.

"I figured it was a long shot to apply for this grant, but there definitely was no chance if we did not at least try," Hanchey said. "So, I turned all the materials over

to Beverly Hamilton and let her work on this grant application for us. I received word on Wednesday [March 20] that we had been awarded one of the 10 grants for Alabama."

Hanchey said he was excited for Elba to receive this \$30,000 grant and it would be used with the recreation department's summer program for children. He said a really good part about this grant is that up to 50 percent can be used on salaries, while the remaining funds can be used to purchase equipment that will benefit the summer program to help meet requirements of the grant.

He said the recreation department will utilize a portion for salaries for the summer program, and the remaining funds would be used to purchase a commercial refrigerator, ice machine, tables, and a projector and screen for the recreation department. "Beverly did a fantastic job in working on this grant for us," Hanchey said. "I really want to give her credit for all she did. This grant will be a huge plus for our recreation department and our summer program, which begins in June, and Beverly deserves a big thank you for a job well done."

ATV ACCIDENT INJURES ONE...A single vehicle accident at 4:45 last Thursday afternoon, March 21, sent ATV operator Steve Bradshaw to the hospital. The Elba Police, Elba Fire Department and Haynes Ambulance responded to the accident, which occurred on County Road 505, East of Elba. Bystanders indicated that Bradshaw was somehow thrown from his ATV and landed on the pavement, causing possible back injuries. The ATV finally stopped right side up, as if nothing had happened. Bradshaw's faithful friend and companion "Blue" hopped back on the stopped vehicle and was patiently waiting for his master to get up and resume their ride.

Elba BOE accepts retirement letters from longtime CNP employees

by Linda Hodge, Editor

The Elba Board of Education met Tuesday evening, March 19, for its regular monthly meeting, and board members accepted retirement letters from two long-time lunchroom employees during the meeting.

Child Nutrition Program workers, Carlos Folmar and Carolyn Hudson, each plan to retire at the end of the current school year. Both are employees at the elementary school.

In approving the retirements for both, board members noted that each had been "good, longtime employees" for Elba City Schools and would be missed. However, they wished both Folmar and Hudson happiness in their retirement.

Board members also accepted a resignation from Elizabeth Ellis, a third grade teacher at Elba Elementary. She will work through the end of the current school year.

Superintendent Chris

Moseley explained to board members that Ellis had decided to be a stay-at-home mom after she completes her current term with Elba City Schools.

Board members approved two out-of-state travel requests during the meeting.

Board member Matt Brunson said he is always happy to approve such trips for students because it affords them great opportunities to learn beyond the classroom. He said he would always be in support of these type trips as long as they were attainable to

the schools to do.

On April 10th, first grade students will take a day trip to Panama City Beach to explore on the Sea Dragon Pirate Cruise, according to Moseley.

The second out-of-state travel approved actually is for next year for the Elba High School band program, but Moseley explained that band director Shaun Hammonds wanted to get approval ahead of the start of fund raising for the trip.

"As Alabama's workforce needs continue to expand with high wage/high demand jobs, highly skilled careers that require

"We in Alabama are the first state to offer MSSC's valuable training across every region, and it is our privilege to equip local students through Enterprise State with the skills that prepare them to successfully compete for jobs in the Wiregrass," Lynn stated.

Elba City Council moves forward with property demolition projects

by Linda Hodge, Editor

The Elba City Council met Monday evening, March 25, for its regular bimonthly gathering, and opened the meeting with a public hearing on three properties that had been advertised for demolition via the city's public nuisance ordinance.

The properties had been deemed dangerous, and the city code enforcement officer William Worthington said property owners and/or other entities with an interest in the property had been notified and given ample time to do something with their property to bring it up to standards to avoid demolition through the public nuisance ordinance.

The three properties discussed included 941 Claxton Avenue and 856 Troy Highway, both of which Worthington said are

owned by Dennis Lawford; and 828 First Street, which is owned by Linda Morrison.

No person was in attendance for the public hearing to speak on the 941 Claxton property nor the 856 Troy Highway property; however, Morrison was in attendance to speak on the property at 828 First Street.

Morrison said she had purchased the property a few years ago and given it to some family members with intentions of them fixing the property up and utilizing it for a place to live. She said she had been unaware of the current situation of the property until recently.

Morrison said she had been notified that the property had not been properly taken care of like she had hoped, and she was at the

Jack Water System receives USDA grant and loan for infrastructure improvements

The Jack Water System in Coffee County just received a \$675,000 loan and a \$507,000 grant from the USDA to make much-needed infrastructure improvements.

Constructing a larger, elevated water storage tank and rehabilitating the well will eliminate the need to purchase water from a neighboring system. With this additional supply, the Jack Water System will

operate more efficiently and continue to provide safe, affordable drinking water to its 1,138 residential and commercial customers.

Acting Assistant to the Secretary for Rural Development Joel Baxley announced this week that USDA is investing \$116 million to help rebuild and improve rural water infrastructure for 171,000 rural Americans in 23 states. Chris Beeker, state director of Rural Development in Alabama, said more than \$9 million will be invested in two rural Alabama communities.

"There are two types of people – those who come into the room and say, 'Well, here I am!' and those who come into the room and say, 'Ah there you are.' - Frederick L. Collins"

The U. S. House of Representatives bill supporting single-payer health insurance (no private health insurance) is expected to die a quiet death without ever coming to a vote. Opponents cite an awfully high (and no limit) cost to the federal budget of such a program. The same can be said for the bill called 'Green New Deal' championed by the noise making socialist Alexandria Ocasio-Cortez of New York, the new kid on the block. There are actually 90 members of the House who are supporting this latter bill, but she needs 218 votes for passage just in the House before it can even go the Senate.

The special prosecutor has finally submitted his Trump report to the U. S. Attorney General. The report apparently gives little information that had not already been leaked to the media by other insiders. This report neither excites nor disappoints us. Does it improve, nor damage, our image of Donald Trump ?? . . . no. Actually it does nothing in that department. We will note that the president's comment Sunday of "No Obstruction, No Collusion, Complete and Total Exoneration. . . ." is a bit of a stretch. Our read is not 'total exoneration' just no proof and this could be a big difference. But then it would not have mattered how the report read, the public was destined to be exposed to many more months of this debate, both in Washington and through the news media. Note: Remember there are still heated 'conspiracy' debates over the killing of President Abe Lincoln, President John Kennedy, Dr. Martin L. King and many other well-known people.

It continues to amaze us at the high level of learning many members of our younger generation are reaching. Sunday a nephew's 12-year-old daughter was showing a book report she had recently submitted at school. The book she had read was "Where the Red Fern Grows", read and loved by generations – including this country boy. While our take from the book was a dream a living that story, she had dissected the plot using words we didn't know at twelve and surely could not have spelled! Add to that her report was done on the computer, complete with graphics that puts our design abilities to shame, even our age, and there could be no other grade for her but the 100 plainly written and circled in red by an admiring teacher. She did admit to us that granny (our retired school teacher sister) had proofed it and added in a couple of semi-colons. But hey, said sister would probably have trashed our report on said book in spite of us having read it untold times, both as a child and as a parent of book loving preschool children. Some educators are clearly getting it right . . . especially when they have the full support of parents and grandparents.

The recent suicides of survivors of two different massive killings come as a shock but probably shouldn't. Following the Elba floods of 1990 and '98 we listened to experts in dealing with mental issues predict that they would see local citizens who had not suffered flood damage have guilt issues because of their good fortune. That is apparently what was weighing on the minds of these young folks. There is a saying that "you can't know what a person had for breakfast by looking at their face." Unfortunately we can't read the tortures ravaging through their brains either.

ADPH officials say to avoid untested, unregulated and potentially dangerous products, such as those labeled CBD

Avoid untested, unregulated and potentially dangerous products, such as those labeled CBD

State Health Officer Dr. Scott Harris cautions the public to avoid using any untested, unregulated and potentially dangerous products.

Falling into this category is CBD (cannabidiol), a nonpsychoactive compound derived from Cannabis sativa, the marijuana plant. While CBD is derived from the cannabis plant, it does not produce a "high" because it is not psychoactive.

In Alabama, medical marijuana use is prohibited, with the exception of products prescribed for those enrolled in a UAB Department of Neurology study (under Carly's Law) or those being treated for a chronic or debilitating disease or medical condition including one that produces seizures (under Leni's Law).

"Products labeled as CBD oil and/or other CBD-related products might contain any number of substances, and there is no assurance they are safe to consume as they have not been evaluated or approved by the U.S. Food and Drug Administration," Dr. Harris said. "Instead of helping relieve symptoms, using CBD products can have side effects that include harmful interactions with other medications. If you suspect a tainted CBD product has caused you to be ill, contact a poison control center and seek medical attention."

The Centers for Disease Control and Prevention Morbidity and Mortality Weekly Report, Notes from the Field: Acute Poisonings from a Synthetic Cannabinoid Sold as Cannabidiol-Utah, 2017-2018, found that counterfeit products labeled as CBD resulted in

adverse reactions in some consumers.

A suspected case was defined as the occurrence of adverse reactions inconsistent with known CBD exposures after ingestion, inhalation, or under-the-tongue consumption of a product labeled as CBD or hemp oil. The report on the Utah outbreak found that acute poisonings occurred due to the presence of a synthetic cannabinoid that was being sold as cannabidiol sickened 52 persons. Five of these users making emergency department visits associated with reported exposure to products labeled as

CBD experienced the following:

- Altered mental status
- Seizures
- Confusion
- Loss of consciousness
- Hallucinations

Among other cases in the study, the most frequent symptoms experienced were altered mental status, nausea or vomiting, and seizures or shaking.

The public should be aware of the possible side effects of CBD use, and if symptoms arise, contact the Regional Poison Control Center at Children's of Alabama at 1-800-222-1222 and seek medical attention.

meeting Monday evening to ask for an extension of up to 30 days for her to get the needed work done to remove this property from the city's demolition list. She assured council members that she had been in contact with a person to do the work for her and that he should have it done in less than 30 days if all went according to plan.

Worthington suggested council members move forward with approving a resolution to proceed with the demolition process because he said the process still allows an additional 20-days for property owners to respond and to work on their property to bring it out of the public nuisance standing.

Council member Rolanda Jones made it clear that she would not be voting to proceed with demolition without giving Morrison a chance to do as she said and get the property taken care of before the city could move forward with its demolition plans.

Morrison said she did not want a lien placed in her name on this property, and she would most definitely see that the work was done.

Mayor Mickey Murdock thanked Morrison for addressing the council during the public hearing and said the matter would be decided in the council meeting, which immediate-

ly followed the public hearing.

During the meeting, council members voted to proceed with the demolition process at 941 Claxton Ave and 856 Troy Highway in approving resolutions on each.

As for the 828 First Street property, council members did, after a lengthy discussion, approved the resolution to proceed with the demolition process; however, they also approved a motion to give the property owner 30 days to get the work she was promising done. If she meets that promise within the 30 days, her property will be dropped from the demolition list as a public nuisance property.

Also during the meeting, the council made a couple of board appointments. Lucia Grantham was reappointed to the South Central Mental Health Board, and Philip Box was appointed to represent Elba's District 2 on the Abatement Board.

A quick review of the city's financials had Mayor Murdock proclaiming that both revenues and expenditures are better than predicted thus far for the fiscal year.

The next Elba City Council meeting will be Monday, April 8, at 5:30 p.m.

CHURCH NEWS

PASTOR'S CORNER

PHILIP BOX, MINISTER
ELBA CHURCH OF CHRIST

Habits are important, because habits become character. Even though the Bible does not specifically use the word "habit" it does show the importance of good habits. You change your life by renewing your mind and that leads to a change in your habits. "And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God." (Romans 12:2) We do not inherit habits; we learn them by habitually repeating the same thing as we go through life. Our habits can be good or habits.

Develop good habits like daily prayer, daily Bible reading, helping others, being a servant, taking action instead of procrastinating, being kind in your speech, have a godly mindset, mind your own business, get out in the sunshine and be thankful for daily blessings. The habit of godliness should be the goal!

Involvement in our community is also a great habit to develop. As we have reminded you over the last few weeks, the ministerial alliance has volunteer opportunities available and we are in the middle of a close drive. Please contribute if you can and help in these great efforts.

Elba High School 7th and 8th graders participate in trash tag challenge

Elba junior high students participate in TrashTag Challenge

Elba High School's seventh and eighth graders participated last week in the latest challenge to sweep the internet, the TrashTag challenge.

The students went to Elba's Tiger Town Park to clean up trash and to help their community. EHS science teacher Phillip Smith came up with the idea, inspired by the challenge that can be seen and shared online.

Participating in the challenge is not just fun, but educational as well. Students will be using information they learned from environmental science, incorporating math, and after will write about the experience.

Elba city clerk Sally Bane talks to the students

EHS students want to take it one step further, however.

SPORTS

Views From The Pressbox

By Ricky Mularz, Sports Editor

When I asked our grandson Lawson what he had planned for spring break he just replied, *"We are going to chill-ax."* I guess that is a combination of chilling out and relaxing, but even if it isn't, I know he plans to enjoy the week out of school and sleep in. Not a bad idea!

For what it is worth....

*** *All of the sudden what had looked like smooth sailing* into the playoffs for the Elba Tigers hit a storm last week as they lost game one in a three-game series to Florala, and now must sweep the Wildcats in the remaining two games to have any hopes of moving on to post-season play. The remaining two games are both on the road, and the fact the games are scheduled later in the season means Florala will have its ace pitcher back on the mound. It won't be easy, but you have to believe that the Tigers have worked too hard to miss the chance of making the playoffs and will bounce back and pull off a twinbill sweep to keep their playoff hopes alive and well.

*** *The Elba Lady Tigers continued to have problems* playing games as Geneva County cancelled two playing dates last week. The Lady Tigers struggled both at the plate and in the field to a midweek loss to area rival Kinston, but the lack of playing time has hurt the Lady Tigers get into any type of rhythm and the players and coaches are convinced that the team will rise to the challenge in the weeks to come and make a run at a spot in the regional tournament.

*** *It was another wild week for the teams in the area* in both baseball and softball, and with just four weeks left in the regular season, there are a couple of interesting scenes that may take place. On the baseball diamond, Brantley bounced back from a lopsided loss to defending 4A state champion Andalusia to shock defending 2A state champ G.W. Long, while New Brockton dropped its area series to Luyerne and now must get past Arifton to even make the post-season party. Zion Chapel picked up a big win over Goshen to pump some life back into the Rebels, and Kinston saw its struggles continue. Over in softball, Brantley kept on rolling and appears to be a lock to claim another area title, while Kinston posted a big win over county-rival New Brockton, New Brockton blasted cross-county rival Zion Chapel, and Zion Chapel kept on fighting and is getting better and better as the season rolls along.

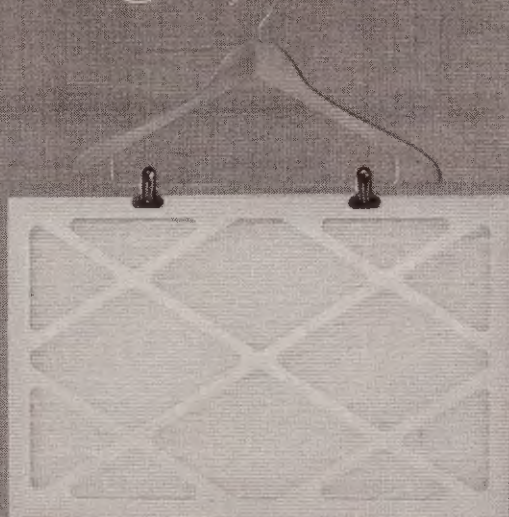

*** *Major League Baseball opens its season* this week and I am ready to watch the Braves as they fight to make it back to the post-season. Their general manager said on the tube over the weekend that some free agent additions may be coming, and I hope that is true as the Braves are still a couple of players shy of being considered a true contender. Oh well, win or lose my TV will be on the channel with the Braves.

*** *The NCAA Tournament is off and running* and it has already been a pretty good post-season for the SEC. Kentucky and Tennessee were expected to be strong and did their part in opening round wins, while Auburn survived to get past its opening round opponent and LSU showed it too was a pretty good team. I know many of the experts are predicting an all ACC Final Four, but I will be surprised of more than one makes it to Minnesota.

*** *In closing....* the Coffee County Lake is open this week and it is a great place to take the children during spring break. If the kids are under twelve there is no charge, and it is peaceful and quiet. See'ya there.

Tigers rally past Rebels 6-5

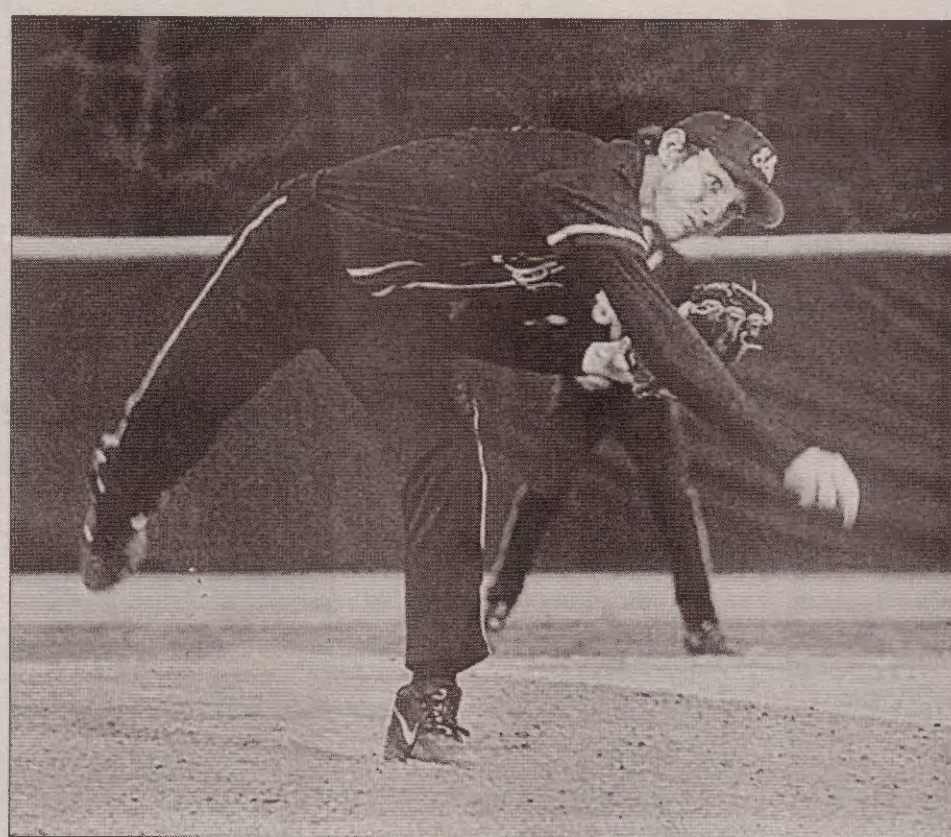

The Elba Tigers staged a furious fifth inning rally to grab the lead and held on to post an exciting 6-5 win over the Zion Chapel Rebels, last week in Elba.

Zion Chapel moved on top 1-0 in the top of the third inning on an rbi single by Aaron Senn and stretched its advantage to 3-0 in the fourth thanks to a two-out error, a walk and a two-run single by Hunter Sheets.

Elba got on the scoreboard in the bottom of the fourth when Paxton Wise drew a two-out walk and then walked around the bases thanks to consecutive walks to Chanler Coppage, Luke Qualls and John Martin Wilson. The Tigers left the bases loaded; however, as the next batter flew out deep to center, and after four innings the Rebels were still on top 3-1.

Back-to-back doubles by Aaron Senn and AJ Johns helped Zion Chapel increase its lead to 4-1 in the top of the fifth, but the Tigers bounced right back in their half of the inning and plated five runs on four hits to grab the lead!

A leadoff single by Blake Swan sparked the fifth inning fireworks, while a walk to Byron Johnson put two runners on base, and when Iverson Lane was hit by a pitch Elba had the bases loaded with no outs. Paxton Wise ripped a one-out rbi single as the Tigers pulled within 4-2, while an rbi single by Chanler Coppage closed the Tigers to within 4-3. John Martin Wilson belted a key two-out double to clean the bases, and by the time the

Elba Tiger pitcher Trenton Sanders delivers a pitch to the plate in last week's big 6-5 win over Zion Chapel. The win evened the Tigers record at 5-5 on the season.

(Photo by Roberta Gideon)

third out was made the Tigers were suddenly on top 6-4.

Zion Chapel cut the Elba lead to 6-5 in the seventh, but stranded the tying run on first as Elba held on to claim the exciting 6-5 win.

John Martin Wilson had 1 hit and 3 rbi's to lead Elba at the plate, while Paxton Wise added 1 hit, 1 rbi and scored 2 runs; Chanler Coppage added 1 hit, 1 rbi and 1 run; and Blake Swan added 1 hit and 1 run.

Aaron Senn had 3 hits and scored 2 runs to lead Zion Chapel at the plate, while Hunter Sheets added

2 hits and 2 rbi's, AJ Johns added 1 hit and 1 rbi, Brandon Hutchinson added 1 hit and 1 run, and Matt Richburg added 1 hit.

(JV Game)

The Zion Chapel Rebels led all the way to post a lopsided 11-2 win over the Elba Tigers, at Elba.

Zion Chapel combined one hit with one walk and one error to grab a 2-0 lead in the top of the first inning, only to see Elba cut the lead to 2-1 in the bottom of the inning when Peyton McCart led off with a single and later scored on a

fielder's choice off the bat of Jaden Juarez. The teams swapped runs in the third, with Elba's run coming after a double by Peyton McCart. However, the Rebels scored three runs in the fourth and added five runs in the fifth to pull away and hand the Tigers the 11-2 defeat.

Peyton McCart had two hits and scored 2 runs to lead Elba at the plate, while Adin Rayborn added 1 hit. Watson had 2 hits to lead Zion Chapel at the plate, while Braisted and Bragg both added 1 hit and scored 3 runs, and Mack added 1 hit.

Slip to 0-2 in area

Elba Lady Tigers fall hard to Kinston 9-1

The Elba Lady Tigers saw their area record slip to 0-2 last week with a 9-1 loss to the Kinston Lady Bulldogs.

Kinston pushed across an unearned run in the top of the first inning thanks to two Elba errors, and combined two doubles with two more Elba errors in the third to extend its lead to 4-0.

The Lady Tigers cut the lead to 4-1 in the bottom of the fourth when Amaysia Whitfield reached on an error, moved around to third base on a fielder's choice and an error, and raced home when Elba suc-

cessfully pulled off a double steal.
